1.1	2021/06/07	L Petersen	Added QA Reports

General Icons

Open Filter Icon

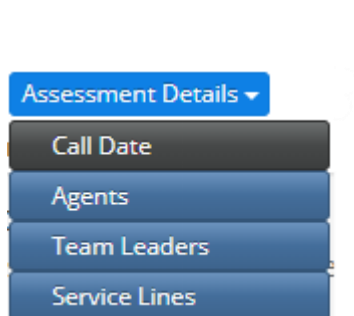

This icon will display your filter options per report. And will therefore have different selections options depending on your campaign configurations.

Clear Filter icon

This icon will clear all existing filter selections and set all the default parameters.

The dates will default to the campaign set dates.

AQA PDF Reports

These reports are geared around Genii methodology and these reports speak to that.

Agent Detail PDF Report

Agent Detail PDF Report

Following report shows call statistics for selected Agents over a selected time period:

Please note , the section filter can only take 4 sections, the default sections are the first 4 sections as they appear on the Capture form. You cannot pick more than 4 sections

☐ Include Operational and Upstream Details
 ☐ Include Additional Insight Details

Agent Detail PDF Report

This report will give you section scores for a selected period per agent, with associated comments.

The report will display controllable failures per assessment with a Review hyperlink to Coaching Feedback.

Upstream and Added insight detail can be added to the report using the tick box buttons.

Agents are grouped by Team Leader so you may find an agent in two or more places on the report if they have moved teams within the requested period.

Associated Date Range = Call date

Coaching Status = coaching completed (Feedback Completed) vs coaching started (anything prior to Feedback Completed)

Pass Rate = $1 - (\text{Controllable Failures} / \text{Total Assessments})$

Section Scores = $1 - (\text{Controllable Failures} / \text{Total Assessments})$

This report has a summary and a detailed section.

The summary is per agent and will include the section scores and pass rate as well as the total assessments and total failed assessments for the selected period.

Only 4 Section scores will display,

The default will include all section in the Pass Rate score, you can view other Section scores by selecting them on the Section Filter

Summary Section:

Campaign: **Insurance | Collections | AQA**
 Call Date Range: Friday 03-Jan-2020 to Wednesday 08-Jul-2020

Team Leader	Calls	Criteria not met	%Pass	Resolution & Satisfaction	Business Efficiency	Regulatory Compliance	Voice of the Customer	Coaching Status
Shaakirah Choonara								
Antoinette De Jager	43	3	93%	100%	95%	98%	100%	0/0

The detail of the assessments will be displayed below the summary

If a standard report (no ticks enabled) is extracted only the detail labelled *Controllable by Agent* will display.

Using the summary above this means that of the total 43 calls only 3 will display with the connection ids and failure detail as only 3 had controllable failures.

If you put a tick in the *Include Additional Insight Detail* you will get the detail for all 43 calls only because when we create a campaign we identify the Summary of Interaction Comment Box as BI or additional insights.

Therefore, by selecting this option you will get the summary comment for each connection is as well as the controllable failure comments

Agent Detail PDF Report

Following report shows call statistics for selected Agents over a selected time period:

Please note , the section filter can only take 4 sections, the default sections are the first 4 sections as they appear on the Capture form. You cannot pick more than 4 sections

☐ Include Operational and Upstream Details
 ☒ Include Additional Insight Details

Agent Detail PDF Report

If you put a tick in the *Include Operational and Upstream Detail* you will connection ids where calls failed both upstream and downstream causal factors

Agent Detail PDF Report

Following report shows call statistics for selected Agents over a selected time period:

Please note , the section filter can only take 4 sections, the default sections are the first 4 sections as they appear on the Capture form. You cannot pick more than 4 sections

☐ Include Operational and Upstream Details
 ☐ Include Additional Insight Details

Agent Detail PDF Report

If you select both you will get all details as per the sample below

Full Report – Detailed Section:

System Ref Number: IC2474233

TeamLeader: Shaakirah Choonara

Resolution & Satisfaction Operational and Upstream Details

Additional comment:

Issue Resolution

- Upstream
 - Not Coded (See Comments)

 Client requested call back later

Summary of Interaction: Additional Insight

Additional comment:

IC.XXX-Email Audit

- Client wanted to know if premium was debited however requested a call back later

Team Leader Performance PDF Report

Team Leader and Agent Performance

This a summary report with 3 layers on complexity.

The default report will give you the agent and team leader summary information, including total calls, total agent failed assessments, Pass Rate and Section scores.

The default report will give summary information per team leader and agent.

Team Leader Performance PDF Report

Following report shows summary metric for the 4 performance metrics:
Resolution & Satisfaction, Business Efficiency, Regulatory Compliance and VOC

Report Type:

Team Leader and Agent Performance

Team Leader Performance PDF Report

It will also include how many coaching feedbacks where completed vs how many where started.

Campaign Productivity PDF Report

This report is your assessor productivity report and would be used by the Quality manager to ensure that their QA's are meeting targets.

Campaign Productivity PDF Report

Following report shows productivity, the number of assessments done by Analysts for a selected time period. All campaigns with the same client will be included in the report type Daily Campaign Assessment Distribution.

Please note the sections filter does not apply to this report

*The Report Type Daily Campaign Assessment Distribution only takes in data for the 17 days before the campaign end date **or** if selected in the filter the report will show data for the 17 days before the selected End Date, see filter breadcrumb for dates*

Type:

Assessor Hourly Report ▼

☐ Include all Customer's Campaigns

Targets:

Daily:

0

Assessment Include:

Only Successfull ▼

Productivity PDF Report

Note:

This report is dependent on captured date so make sure you have included it in your date selection. i.e. if your calls were in January but you only assessed or captured them in February you will have to include February in your date filter selection.

Assessor Hourly Report

The default report is an hourly report.

You can set a target if you have one in your department.

By selection *Include all Customer's Campaign*, the data will display all the assessment across the clients db.

Type: Assessor Hourly Report

Targets: Daily: 2

Assessment Include: Only Successfull

☐ Include all Customer's Campaigns

Productivity PDF Report

By adding a target, the resulting report will be highlighted accordingly, sample below.

The tables are displayed be assessor, per month, per day (rows), per hour (columns).

Please note legend below the table.

Assessor: preshen.naidu@insurance.co.za results for Apr-20

	09:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	Daily Total

Call Assessment Distribution PDF Report

Call Assessment Distribution PDF Report

Generate a report to review the Team Leader and Agent call distribution for Successful, Problem or Absent assessments. Reported by Month.

Please note the sections filter does not apply to this report

Assessment Distribution PDF Report

This report will display the assessment distribution counts per agent.

Grouped Month. This means an agent could appear in multiple places if they moved within the selected period.

It will show all attempts to assess the agent and categorize the calls as either Successful, Absent and Problem.

Campaign: **Insurance | Client Care | AQA**
Call Date Range: Monday 06-Jul-2020 to 29-Jul-2020

Assessment Period: **July 2020**

	Successful	Problem	Absent	Total
Abednego Naidoo	8		1	9
Anriette Viljoen	8	1		9
Bella Masekela	8			8
July summary:	24	1	1	26

Coaching Feedback Distribution PDF Report

This report can be used to view the productivity of the team leaders with respect to feedback.

Coaching Feedback Distribution PDF Report

Generate a report to review the distribution of feedback classifications the Team Leader and Agent by Month.

Please note the sections filter does not apply to this report

Coaching Feedback Distribution PDF Report

Feedback distribution per agent, per month, per team leader.

The feedback status depend on the site as clients can request addition options depending on how they want to use the app.

The numbers are per unique connection id, this means that if a feedback status has been allocated multiple times on a single connection id it will only count as one.

Example: these entries will only count as 1 as it was done on a single connection id.

Coaching Feedback Details			
Date	Classification	Comment	Assessed By
17-Jan-2020	Dispute Raised	Hi T Listened to this call and I completely disagree with the findings: 1. Empathy here is subjective – client called informing that he had no money in his account due to being hijacked in December band them clearing his bank account. Issue was unpaid premium, dealing wit the empathy factor, I don't think it should be categorised under R&S 2. In terms of the premium, client did not query a claim, just the premium, he was informed that we had deducted that morning and it shows successful, that there is nothing we can do at this stage and that he should call us back in a day or two – this is procedure in CC 3. Since when do we tell a client that we will call him once the premium is unsuccessful? Please overturn	chereese.leafa@insurance.co.za
17-Jan-2020	Dispute Invalid	Hi Reese, Empathy - We train and coach that we are human and not robots, the client advised on the hi-jacking and the agent sounded dead and robot like in the sense that he went on to read scripting etc. at no point was there "oh sorry to hear... what happened... glad you are okay..." With regards to the financials, I agree with the auditor that the client said more than once there is no funds in his account, so why inform a client to "wait and see if it goes through and then phone us back" Yes, the system shows successful now and it will change but the client was clear in stating that there is not money so it will bounce, give the client his options, in other words "at the moment you don't have cover, you advised you will only have money on the 15th, which means we will need to arrange a special debit for you which will only cover you from the 15th again. Unfortunately, you will need to give us a call as we can't arrange it for you until the debit has bounced which take 3 to 4 days" No overturn on both parameters	tracey.miller@insurance.co.za

[Add additional feedback Comment >](#)

Site Overview and Usage PDF report

Like the Campaign Productivity PDF Report this report is dependent on the capture date not the call date.

This report will also include all the campaign on this customer.

Site Overview and Usage PDF Report

Indicates how much the site is being used by returning the number of Assessments done, Coaching Sessions completed, Coaching Sessions started, Number of Agents assessed, Number of Assessors. Measured against Each calendar month per campaign.

Please note the sections filter does not apply to this report

[Site Overview PDF Report](#)

This is a distribution report per campaign per month which displays counts per assessment, those being assessed, coaching and those assessing.

Assessments include Successfully Captures, Problem and Absent calls.

It should be noted that the Totals are not the accumulative of the table contents.

eg: Look at the last column in the screen shot *Unique Analysts* the total shows 5 whereas the sum of the column is 9.

What this means is that there are one or more analysts capturing on multiple campaigns.

Jul-2020	Assessments	Unique Agents	Coaching Started	Coaching Completed	Unique Analysts
Insurance Brokers CC	10	10	0	0	1
Insurance Brokers Retention	8	8	0	0	1

QA Reports

QA is a bring your own solution.

It allows you to add a traditional QA scorecard with weights to the Genii app.

For detail on the logic please refer to [Weighted AQA & QA Logic.docx](#)

There are two reports here which are unique to QA.

Both have *Review* option which will allow you to go to the feedback page.

Agent Detail PDF Report

There are two options on this report.

As with AQA, this is detailed information, per connection id / interaction.

The first will give you only the Section Scores and Overall Assessment Scores.

Section Metric

Agent Detail PDF Report

Following report will list detail Section and Question results for the selected filter criteria:

Report Type:

Section Metric
