

# Genii Data Model

## Overview

This document explains the data model that is available to the data connector. This model is the one that will be used by users of the data connector. The data connector has multiple views available as this system was initially built as a prototype so there are some views that are still available but will not be maintained and if the views cause performance problems they will be removed when required.

The following views will be maintained, as our officially supported data connector infrastructure and customer enablement.

## Models

There are very few key models in this system.

- **v\_Answers:**  
This model stores all the answers for a customer for all their campaigns.
- **v\_Assessments:**  
This is the model that stores all the assessments that have been completed.
- **v\_Audits:**  
The audits associated with the assessments.
- **v\_Campaigns:**  
This model stores the campaigns and their specific configurations this is a view of a table that is not available in the customer DB.
- **v\_Customers:**  
The customers that are configured in the application, each customer has their own database.
- **v\_Feedbacks:**  
An entity representing multiple feedbacks and communications through the coaching process.
- **v\_FeedbackDetails:**  
A single instance of feedback on an assessment.
- **v\_Persons:**  
Collection of persons.
- **v\_PersonCampaigns:**  
The persons and their associated campaign.
- **v\_Questions:**  
This model stores all the questions for a customer for all their campaigns.
- **v\_Roles:**  
The Roles that users can be allocated.
- **v\_Users:**  
The users that are in created in the Genii System.
- **v\_UserRoles:**  
The users and their associated roles.

## Definitions:

[Full Numbers]: Only Integers are aloud, numbers with a decimal point are not aloud in this column.

[User Specified Text]: This is a free text field that can handle the allocated size.

[User Specified Text | Masked]: This is a free text field that is masked, meaning that any number that is 4 characters or longer is replaced with "XXXX".

[Now]: The default is the date and time the record is inserted into the database on the server.

[System Configuration]: Values specified for the system to operate correctly.

[Application Configuration]: Values specified during the setup and configuration.

[Application Specified]: The value is inserted created and updated by the system.

For more elaboration on the data types being specified in the document please go to the following Microsoft page.

<https://docs.microsoft.com/en-us/sql/t-sql/data-types/data-types-transact-sql?view=sql-server-ver15>

## v\_Answers

<b>AnswerID</b>		NOT NULL	Bigint
Default	Identity (1,1)	Relationship	Primary Key
Examples	[Full Numbers]	Description	The unique identifier for the Answers object.
<b>CampaignID</b>		NOT NULL	Bigint
Default	0	Relationship	Foreign Key (v_Campaigns.CampaignID)
Examples	[Full Numbers]	Description	To which campaign do the answers belong to.
<b>ConnectionID</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The connection ID the answer has been recorded against.
<b>UserName</b>		NULL	Nvarchar (100)
Default	--	Relationship	Foreign Key (v_Users.UserName)
Examples	<a href="mailto:bob@joescafe.com">bob@joescafe.com</a> <a href="mailto:somebody@internet.com">somebody@internet.com</a>	Description	The username that recorded or updated the answer.
<b>NPSResponseID</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The nps response id that is recorded against the answer.
<b>CallReason</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[Application Configuration] Gauge Assessment Successful Captured	Description	The answer call reason captured against the assessment.
<b>DateCaptured</b>		NOT NULL	DateTime
Default	[Now]	Relationship	--
Examples	2020-10-22 22:33:31.000 2019-11-19 08:35:18.000	Description	The date and time the record is inserted into the database.
<b>DateCall</b>		NOT NULL	Date
Default	--	Relationship	--
Examples	2020-10-22 00:00:00.000 2019-11-19 00:00:00.000	Description	The date the call was done, this is recorded on the assessment.
<b>QuestionResult</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration] Yes True No	Description	The answers specified by the user.
<b>QuestionComment</b>		NULL	Nvarchar (1000)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The free text comment specified by the user against the answer.
<b>QuestionID</b>		NOT NULL	Bigint
Default	--	Relationship	Foreign Key (v_Questions.QuestionID)
Examples	[Full Numbers]	Description	The ID of the question to which the answer belongs.
<b>Weight</b>		NULL	Decimal (18,15)
Default	--	Relationship	--
Examples	[Full Numbers]	Description	The weight of the answer at the time of capturing.
<b>Score</b>		NULL	Decimal (18,15)
Default	--	Relationship	--
Examples	[Full Numbers]	Description	The score the answer acquired when the assessment was done.
<b>ScoreIndicator</b>		NULL	Bit
Default	--	Relationship	--
Examples	[Full Numbers]	Description	The indicator of the score, weather on the application the answer had a cup-pie or not (<).
<b>AssessmentID</b>		NOT NULL	Bigint
Default	0	Relationship	Foreign Key (v_Assessments.AssessmentID)
Examples	[Full Numbers]	Description	To which campaign do the answers belong to.

## v\_Assessments

<b>AssessmentID</b>		NOT NULL	Bigint
Default	Identity (1,1)	Relationship	Primary Key
Examples	[Full Numbers]	Description	The unique identifier for the assessments.
<b>CampaignID</b>		NOT NULL	Bigint
Default	0	Relationship	Foreign Key (v_Campaigns.CampaignID)
Examples	[Full Numbers]	Description	To which campaign does the assessment belong to.
<b>ConnectionID</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The customer chosen identifier for the assessment.
<b>UserName</b>		NULL	Nvarchar (100)
Default	--	Relationship	Foreign Key (v_Users.UserName)
Examples	[Application Specified] <a href="mailto:bob@joescape.com">bob@joescape.com</a> <a href="mailto:somebody@internet.com">somebody@internet.com</a>	Description	To which campaign does the assessment belong to.
<b>CallAgentClass</b>		NULL	Nvarchar (200)
Default	--	Relationship	--
Examples	[Application Configuration] Cancellation Benefit Confirmation GP Lists	Description	The agent call class associated with the assessment.
<b>NPSResponseID</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The NPS Response ID that was entered into the assessment.
<b>CustomerAccountNo</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The customer account the assessment is paired with.
<b>CallReason</b>		NULL	Nvarchar (500)
Default	--	Relationship	--
Examples	[Application Configuration] Gauge Assessment Successful Captured	Description	The call reason logged against the assessment.
<b>CallFCR</b>		NULL	Nvarchar (500)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	The call FCR logged against the assessment.
<b>CallRepeat</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration] Yes No	Description	The call repeat indicator.
<b>ServiceLine</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	The service line logged against the assessment.
<b>DateCaptured</b>		NOT NULL	Datetime
Default	[Now]	Relationship	--
Examples	2020-10-22 22:33:31.000 2019-11-19 08:35:18.000	Description	The date and time the assessment was saved.
<b>DateCall</b>		NOT NULL	Date
Default	--	Relationship	--
Examples	2020-10-22 00:00:00.000 2019-11-19 00:00:00.000	Description	The date the call was done to which the assessment is associated with.
<b>CallDurationM</b>		NULL	Nvarchar (10)
Default	--	Relationship	--
Examples	[Full Numbers]	Description	The duration of the call's minutes recorded by the assessor.
<b>CallDurationS</b>		NULL	Nvarchar (10)
Default	--	Relationship	--
Examples	[Full Numbers]	Description	The duration of the call's seconds recorded by the assessor.
<b>SystemRefNo</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The system reference number logged by the user.
<b>Reason1</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration] Cancellation Customer Details Update	Description	A reason logged against the assessment.

<b>Reason1RootCause1</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason1RootCause2</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason1RootCause3</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason2RootCause1</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason2RootCause2</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason2RootCause3</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason3RootCause1</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason3RootCause2</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>Reason3RootCause3</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	A reason logged against the assessment.
<b>UserDefined01</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined02</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined03</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined04</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined05</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined06</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined07</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined08</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined09</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>UserDefined10</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	A customer configured assessment attribute.
<b>Reason1FCR</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	The reason 1, FCR attribute saved against the assessment.
<b>Reason2FCR</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration]	Description	The reason 2, FCR attribute saved against the assessment.

<b>Reason3FCR</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 3, FCR attribute saved against the assessment.	
<b>Reason1What</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 1 what attribute saved against the assessment.	
<b>Reason1How</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 1 how attribute saved against the assessment.	
<b>Reason2What</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 2 what attribute saved against the assessment.	
<b>Reason2How</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 2 how attribute saved against the assessment.	
<b>Reason3What</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 3 what attribute saved against the assessment.	
<b>Reason3How</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 3 how attribute saved against the assessment.	
<b>Reason3How</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The reason 3 how attribute saved against the assessment.	
<b>Department</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The department saved against the assessment.	
<b>SegmentCampaign</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	The segment campaign saved against the assessment.	
<b>CallRecordingURL</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The call recorders URL to obtain the call.	
<b>Reason1SCR</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	Reason 1 SCR attached to the assessment.	
<b>Reason2SCR</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	Reason 2 SCR attached to the assessment.	
<b>Reason3SCR</b>		NULL		Nvarchar (250)
Default	--	Relationship	--	
Examples	[Application Configuration]	Description	Reason 3 SCR attached to the assessment.	
<b>AgentID</b>		NULL		Bigint
Default	--	Relationship	Foreign Key (v_Persons.PersonID)	
Examples	[Application Configuration] [Full Numbers]	Description	The person id attached to the assessment when the assessment was done, as an agent id.	
<b>TeamLeaderID</b>		NULL		Bigint
Default	--	Relationship	Foreign Key (v_Persons.PersonID)	
Examples	[Application Configuration] [Full Numbers]	Description	The person attached to the assessment when the assessment was done, as a team leader.	
<b>ManagerID</b>		NULL		Bigint
Default	--	Relationship	Foreign Key (v_Persons.PersonID)	
Examples	[Application Configuration] [Full Numbers]	Description	The person attached to the assessment when the assessment was done, as a manager.	
<b>CalibrationTarget</b>		NULL		Decimal (5, 2)
Default	--	Relationship	--	
Examples	50,32 25,76	Description	The target, the pairing calibration assessments need to meet to be seen as a pass.	

## v\_Audits

<b>AuditID</b>		NOT NULL		Bigint
Default	Identity (1,1)	Relationship	Primary Key	
Examples	[Full Numbers]	Description	The unique identifier of an audit.	
<b>CampaignID</b>		NOT NULL		Bigint
Default	0	Relationship	Foreign Key (v_Campaigns.CampaignID)	
Examples	[Application Configuration] [Full Numbers]	Description	To which campaign does the audit belong to.	
<b>ConnectionID</b>		NULL		Nvarchar(100)
Default	0	Relationship	--	
Examples	[User Specified Text]	Description	The user identifier of the assessment to which the audit belongs to.	
<b>UserName</b>		NULL		Nvarchar(100)
Default	--	Relationship	Foreign Key (v_Users.UserName)	
Examples	<a href="mailto:bob@joescape.com">bob@joescape.com</a> <a href="mailto:somebody@internet.com">somebody@internet.com</a>	Description	The user that logged the audit.	
<b>AuditType</b>		NULL		Nvarchar(100)
Default	0	Relationship	--	
Examples	[Application Configuration] AllowEdit Delete	Description	The audit type recorded against the audit event.	
<b>AuditComment</b>		NULL		Nvarchar(1000)
Default	--	Relationship	--	
Examples	[User Specified Text   Masked]	Description	The comment attached to an audit describing in what the audit is for and why it has had to happen	
<b>DateAudit</b>		NOT NULL		Datetime
Default	[Now]	Relationship	--	
Examples	[System Specified] 2019-08-28 09:47:48.007 2020-02-25 10:02:34.043	Description	The date and time the audit was saved to the database.	
<b>CustomerID</b>		NOT NULL		Bigint
Default	0	Relationship	Foreign Key(v_Customers.CustomerID)	
Examples	[System Specified] [Full Numbers]	Description	The customer ID representing the customer to which the audit belongs	
<b>AssessmentID</b>		NOT NULL		Bigint
Default	0	Relationship	Foreign Key(v_Assessments.AssessmentID)	
Examples	[System Specified] [Full Numbers]	Description	The ID of the assessment to which the assessment belongs.	

## v\_Campaigns:

<b>CampaignID</b>		NOT NULL	Bigint
Default	Identity (1,1)	Relationship	Primary Key
Examples	[Full Numbers]	Description	The unique identifier for the campaign object
<b>Description</b>		NOT NULL	Nvarchar (max)
Default	--	Relationship	--
Examples	[User specified Text   Masked]	Description	The description of the campaign name displayed to the user.
<b>CustomerID</b>		NULL	Bigint
Default	--	Relationship	Foreign Key (v_Customers.CustomerID)
Examples	[Full Numbers]	Description	To which customer does the campaign belong to.
<b>DateStart</b>		NOT NULL	Date
Default	--	Relationship	--
Examples	2019-10-20 00:00:00.000 2019-10-22 00:00:00.000	Description	The start date of the campaign. Affects whether an assessment can be done to prevent assessments outside the target period. Effects the defaults used in the reporting filters.
<b>DateComplete</b>		NOT NULL	Date
Default	--	Relationship	--
Examples	2021-02-28 00:00:00.000 2019-10-28 00:00:00.000	Description	The end of the campaign. Affects whether an assessment can be done to prevent assessments outside the target period. Effects the defaults used in the reporting filters.
<b>Status</b>		NULL	Nvarchar (20)
Default	--	Relationship	--
Examples	New Run Closed	Description	A system column indicating the status of a campaign, these are system lookup values and will vary depending on the state of the campaign.
<b>Remarks</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	User specified field that is displayed to the user while doing assessments.
<b>Instructions</b>		NULL	Nvarchar (Max)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	Instructions displayed to the user while capturing an assessment.
<b>CampaignType</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[System Configuration] WhyWhatHow WhyOnly	Description	System indicator to specify how the capture form needs to be constructed and treated as a BI entity.
<b>CampaignConfig</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[System Configuration] IA AppCampaign_ComboQA	Description	System indicator to that indicates under which licensing model the campaign needs to be created at.
<b>SamplePlanMon</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Monday.
<b>SamplePlanTue</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Tuesday.
<b>SamplePlanWed</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Wednesday.
<b>SamplePlanThu</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Thursday.
<b>SamplePlanFri</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Friday.
<b>SamplePlanSat</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Saturday.
<b>SamplePlanSun</b>		NOT NULL	Smallint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	User specified for assessor daily targets on Sunday.
<b>RevisionCurrent</b>		NOT NULL	Bigint
Default	0	Relationship	--
Examples	[Full Numbers]	Description	Enable the user defined option for the campaign.

<b>EnableCallSCR</b>		NOT NULL	Bit
Default	0	Relationship	--
Examples	[Full Numbers]	Description	Enable call SCR option for a campaign.
<b>PassTarget</b>		NOT NULL	Decimal (18,2)
Default	0	Relationship	--
Examples	75.21 89.53	Description	Value that indicates if the campaign has met it target.
<b>AssessmentTarget</b>		NOT NULL	Decimal (18,2)
Default	0	Relationship	--
Examples	75.21 89.53	Description	Value that Indicates if an assessment can be classed as passing the campaigns requirements.

## v\_Customers

<b>CustomerID</b>		NOT NULL	Bigint
Default	Identity (1,1)	Relationship	Primary Key
Examples	[Full Numbers]	Description	The unique identifier representing a customer.
<b>CustomerName</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The name of the customer recorded when the customer is created.
<b>DatabaseName</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The name of the database to which the customers data resides.
<b>UserDefined01</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined02</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined03</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined04</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined05</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined06</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined07</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined08</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined09</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.
<b>UserDefined10</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The value that will be displayed to the user when inputting values in the capture form.

## v\_Feedback

<b>FeedbackID</b>		NOT NULL		Bigint
Default	Identity (1,1)	Relationship	Primary Key	
Examples	[Full Numbers]	Description	The unique identifier for a feedback session.	
<b>CampaignID</b>		NOT NULL		Bigint
Default	0	Relationship	Foreign Key (v_Campaigns.CampaignID)	
Examples	[Full Numbers] [System Specified]	Description	To which campaign does the feedback apply to.	
<b>ConnectionID</b>		NOT NULL		Nvarchar (100)
Default	0	Relationship	--	
Examples	[User Specified Text]	Description	Identifier for an assessment.	
<b>AssessmentID</b>		NOT NULL		Bigint
Default	0	Relationship	Foreign Key (v_Assessments.AssessmentID)	
Examples	[Full Numbers] [System Specified]	Description	Identifier for an assessment.	
<b>FeedbackStatus</b>		NOT NULL		Bigint
Default	0	Relationship	--	
Examples	[Application Configuration] [System Configuration]	Description	The status of the feedback, the user chosen feedback option.	
<b>InitialFeedback</b>		NULL		Nvarchar(max)
Default	0	Relationship	--	
Examples	[User Specified Text   Masked]	Description	The first feedback given to the feedback session.	
<b>InitialDate</b>		NOT NULL		Datetime
Default	0	Relationship	--	
Examples	[System Specified]	Description	The date and time of the first feedback.	
<b>InitialUserName</b>		NULL		Nvarchar (100)
Default	0	Relationship	Foreign Key (v_Users.UserName)	
Examples	[System Specified]	Description	The user that logged the first feedback to open the feedback session.	
<b>CurrentFeedback</b>		NULL		Nvarchar (max)
Default	--	Relationship	--	
Examples	[User Specified Text   Masked]	Description	The last feedback against the feedback session.	
<b>CurrentDate</b>		NULL		Datetime
Default	--	Relationship	--	
Examples	[System Specified] 2019-11-20 07:33:51.000 2019-11-25 13:22:02.000	Description	The date of the last feedback against the feedback session.	
<b>CurrentUserName</b>		NULL		Nvarchar(100)
Default	--	Relationship	--	
Examples	[System Specified] 2019-11-20 07:33:51.000 2019-11-25 13:22:02.000	Description	The username of the user that logged the last feedback in the session.	
<b>AgentID</b>		NULL		Bigint
Default	--	Relationship	Foreign Key (v_Persons.PersonID)	
Examples	[System Specified]	Description	The ID of the person against which the feedback is sent or assigned to.	
<b>GUID</b>		NULL		Bigint***TYLER REMOVE THIS
Default	--	Relationship	Foreign Key (v_Persons.PersonID)	
Examples	[System Specified]	Description	The ID of the person against which the feedback is sent or assigned to.	

## v\_FeedbackDetails

<b>FeedbackDetailID</b>		NOT NULL		Bigint
Default	Identity (1,1)	Relationship	Primary Key	
Examples	[System Specified]	Description	The unique identifier of the feedback instance.	
<b>FeedbackID</b>		NOT NULL		Bigint
Default	--	Relationship	Foreign Key (v_Feedbacks.FeedbackID)	
Examples	[System Specified]	Description	To which feedback session does this instance of a feedback belong to.	
<b>FeedbackDate</b>		NOT NULL		Datetime
Default	--	Relationship	--	
Examples	[System Specified] 2019-11-19 16:30:23.000 2019-10-22 16:31:10.000	Description	When the feedback was logged.	
<b>UserName</b>		NULL		Nvarchar (100)
Default	--	Relationship	Foreign Key (v_Users.UserName)	
Examples	[System Specified] <a href="mailto:bob@joesafe.com">bob@joesafe.com</a> <a href="mailto:somebody@internet.com">somebody@internet.com</a>	Description	The user against that logged the feedback.	
<b>FeedbackText</b>		NULL		nVarchar(max)
Default	--	Relationship	--	
Examples	[User Specified Text   Masked]	Description	The user specified text content of the feedback.	
<b>FeedbackStatus</b>		NULL		nVarchar(250)
Default	--	Relationship	--	
Examples	[System Specified] [Application Configuration] [System Configuration]	Description	Feedback status associated this feedback instance.	
<b>FeedbackStatus</b>		NULL		nVarchar(250)
Default	--	Relationship	--	
Examples	[System Specified] [Application Configuration] [System Configuration]	Description	Feedback status associated this feedback instance.	
<b>NotificationDate</b>		NULL		Datetime
Default	--	Relationship	--	
Examples	[System Specified]	Description	The date at which the notification had been sent.	
<b>NotificationAcknowledge</b>		NULL		Nvarchar (100)
Default	--	Relationship	--	
Examples	[System Specified]	Description	The status of the notification acknowledgement.	
<b>NotificationComment</b>		NULL		Nvarchar (500)
Default	--	Relationship	--	
Examples	[User Specified Text   Masked]	Description	The comment supplied by the person that was requested to respond to the feedback	
<b>NotificationAckBy</b>		NULL		Nvarchar (100)
Default	--	Relationship	--	
Examples	[System Specified]	Description	The user the acknowledged the feedback notification.	

## v\_PersonCampaign

<b>PersonID</b>		NOT NULL	Bigint
Default	--	Relationship	Primary Key, Foreign Key (v_Persons.PersonID)
Examples	[System Specified]	Description	The ID representing a person.
<b>CampaignID</b>		NOT NULL	Bigint
Default	--	Relationship	Primary Key, Foreign Key (v_Campaigns.CampaignID)
Examples	[System Specified]	Description	The ID representing a campaign.

## v\_Persons

<b>PersonID</b>		NOT NULL		Bigint
Default	Identity (1,1)	Relationship	Primary Key	
Examples	[System Specified]	Description	The ID representing a campaign.	
<b>Name</b>		NULL		Nvarchar (50)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	Name of the person.	
<b>EmployeeID</b>		NULL		Nvarchar (50)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The employee ID allocated to the person.	
<b>Email</b>		NULL		Nvarchar (50)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The email property of a person.	
<b>StartDate</b>		NOT NULL		Datetime
Default	--	Relationship	--	
Examples	2019-11-19 00:00:00.000 2019-10-22 00:00:00.000	Description	The start date of a person.	
<b>LastEditDate</b>		NOT NULL		Datetime
Default	--	Relationship	--	
Examples	[System Specified] 2019-11-19 16:30:23.000 2019-10-22 16:31:10.000	Description	The date time of the last edit.	
<b>Enabled</b>		NOT NULL		Bit
Default	--	Relationship	--	
Examples	0   1	Description	Indicator specifying weather the person should be included in lists.	
<b>Agent</b>		NOT NULL		Bit
Default	--	Relationship	--	
Examples	0   1	Description	Indicator specifying weather the person is an agent.	
<b>TeamLeader</b>		NOT NULL		Bit
Default	--	Relationship	--	
Examples	0   1	Description	Indicator specifying weather the person is a team leader.	
<b>Manager</b>		NOT NULL		Bit
Default	--	Relationship	--	
Examples	0   1	Description	Indicator specifying weather the person is a manager.	
<b>CustomerID</b>		NOT NULL		Bit
Default	--	Relationship	--	
Examples	[System Specified]	Description	The customer to which the person has a relationship with.	
<b>Surname</b>		NOT NULL		Nvarchar (50)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The surname of the person.	

## v\_Questions

<b>QuestionID</b>		NOT NULL	Bigint
Default	Identity (1,1)	Relationship	Primary Key
Examples	[System Specified] [Full Numbers]	Description	The unique identifier for a question.
<b>ParentQuestionID</b>		NOT NULL	Bigint
Default	--	Relationship	Foreign Key (v_Questions.QuestionID)
Examples	[System Specified] [Full Numbers]	Description	The parent question to which this question belongs.
<b>CampaignID</b>		NOT NULL	Bigint
Default	--	Relationship	Foreign Key (v_Campaigns.CampaignID)
Examples	[System Specified] [Full Numbers]	Description	The campaign to which the question belongs.
<b>QuestionIndex</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text]	Description	The question index displayed on the question form to the assessor.
<b>QuestionText</b>		NULL	Nvarchar (500)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The question text displayed on the question form to the assessor.
<b>Definition</b>		NULL	Text
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The on-hover definition of a question displayed to an assessor when capturing.
<b>QuestionType</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration] ?,>Yes,No,N/A ?,>Yes,No	Description	The possible answers that are displayed to the assessor
<b>Category</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[Application Configuration] [System Configuration] Assessment Attribute Attribute+Com	Description	The category of the question
<b>CategoryLevel</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[Application Configuration] [System Configuration] [Full Numbers]	Description	The category level of the question
<b>ControlType</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	[Application Configuration] [System Configuration] Controllable Un-Controllable	Description	The control type of the question
<b>QuestionReportText</b>		NULL	Nvarchar (250)
Default	--	Relationship	--
Examples	[User Specified Text   Masked]	Description	The question text displayed on reports to users
<b>QuestionReportTarget</b>		NULL	Nvarchar (100)
Default	--	Relationship	--
Examples	54,32 89,12	Description	The target that the question should get on reports
<b>QuestionStatus</b>		NULL	Nvarchar (20)
Default	--	Relationship	--
Examples	Disabled Enabled Hidden	Description	The status of the question.
<b>Weight</b>		NOT NULL	Decimal (18,15)
Default	--	Relationship	--
Examples	[User Specified Text] 34,12	Description	The weight assigned to the question.
<b>FailureType</b>		NULL	Nvarchar(30)
Default	--	Relationship	--
Examples	[System Specified]	Description	The weight assigned to the question.
<b>Sentiment</b>		NOT NULL	Bit
Default	--	Relationship	--
Examples	[Application Configuration] [System Configuration]	Description	The sentiment of the question.

## v\_Roles

<b>RoleId</b>		NOT NULL		Nvarchar (128)
Default	--	Relationship	--	
Examples	[System Specified]	Description	The unique identifier for the role	
<b>Name</b>		NOT NULL		Nvarchar (256)
Default	--	Relationship	--	
Examples	[System Specified] [System Configuration]	Description	The name of the role	

## v\_UserRoles

<b>RoleId</b>		NOT NULL		Nvarchar (128)
Default	--	Relationship	Primary Key, Foreign Key (v_Roles.RoleID)	
Examples	[System Specified]	Description	The ID of the role to which the relationship belongs	
<b>UserID</b>		NOT NULL		Nvarchar (128)
Default	--	Relationship	Primary Key, Foreign Key (v_Users.UserID)	
Examples	[System Specified]	Description	The ID of the user to which the relationship belongs	

## v\_Users

<b>UserID</b>		NOT NULL		Nvarchar (128)
Default	--	Relationship	Primary Key	
Examples	[System Specified]	Description	The unique identifier of the user	
<b>Name</b>		NULL		Nvarchar (max)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The name of the user specified on the application	
<b>Department</b>		NULL		Nvarchar (max)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The department the user belongs to.	
<b>UserName</b>		NULL		Nvarchar (256)
Default	--	Relationship	--	
Examples	[User Specified Text]	Description	The username of the user.
